COURSE DESCRIPTIONS

STD Part-Time Intensive (10 hours didactic and 10 hours experiential training) Cost: \$100.00

This 3-day clinical course provides both didactic and experiential activities. Health care professionals who work with STD patients full- or part-time are encouraged to attend. The course includes information about priority and prevalent STDs and offers clinical and laboratory experience.

STD Intensive (18 hours didactic and 14 hours experiential training) Cost: \$200.00

Health care practitioners (nurses, physicians, physician assistants, or nurse practitioners/midwives) who are new to the area of STD treatment or who wish a longer, more in-depth course are encouraged to attend. The 5-day course includes information about a wide range of STDs (including HIV infection) and offers clinical and laboratory experience.

STD 101 (7 hours didactic) Cost: \$40.00

STD Clinician Update Courses are seminars for practicing clinicians. The seminar may include clinical problem-solving, formal lectures and consultation time. These seminars will focus on a narrower range of STDs or specific issues in STD diagnosis and management. Learning and performance objectives are the same as for similar topics presented in the Part-Time Intensive courses.

STD 301 Overview for Community Healthcare Workers (12 hours didactic) Cost: \$75.00

This seminar may include clinical problem-solving, formal lectures and break-out sessions. These seminars will focus on a narrower range of STDs or specific issues in STD risk assessment, screening, rapid HIV testing, and prevention strategies. Update courses are 2 days in length and may be in combination with other courses. Learning and performance objectives are the same as for similar topics presented in the Part-Time Intensive courses.

Please contact Rick Meriwether to schedule this seminar for your organization.

STD 401 Laboratory Skills Course (12 hours) Cost: \$150.00

The laboratory course provides experience with procedures for performing specimen preparation and stat laboratory tests used to aid in the diagnosis of STDs, including bright and dark field microscopy,

specimen preparation for Gram stain, gonorrhea culture, wet mount, KOH prep, rapid plasma reagin (RPR) card test, and DNA probe testing.

Please contact Rick Meriwether to schedule this course.

PURPOSE AND OBJECTIVES

These courses provide information that will enable the participants to: 1) Discuss the epidemiology, clinical manifestations and treatment of STDs and HIV; 2) discuss the complications and connection between STD and HIV Infections; and 3) enhance their ability to obtain a good history and physical examination of patients with STDs.

ACCREDITATION

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Alabama School of Medicine (UASOM); the Jefferson County Department of Health; the University of Alabama at Birmingham (UAB), Division of Infectious Diseases STD Program; and the UAB AATEC/SEATEC. The UASOM is accredited by the ACCME to provide continuing medical education for physicians.

The University of Alabama School of Medicine designates specific activities for a maximum of 32.25 AMA PRA Category 1 credit(s)TM. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The University of Alabama, School of Medicine is an equal opportunity/affirmative action institution.
